Camille Cash, MD

Dear TSPS Members, Colleagues, Industry Partners and Guests,

We invite you to join us for the Texas Society of Plastic Surgeons' 2025 Annual Meeting, September 26-28 at the Marriott Marquis in Houston. This year we return to a metropolitan setting and what better the city than where Drs. Cronin and Gerow invented and implanted the first silicone implant in 1962.

It is an exciting time as breast augmentation and breast implants are celebrating new technology while re-examining surgical techniques, expanding the use of soft tissue support, while reviewing long term outcomes and safety for our patients.

Our Keynote speaker is internationally renowned Dr. G. Patrick Maxwell, a visionary pioneer, whose contributions are immeasurable. We also honor another powerhouse in this year's Texas Legend, Dr. Linda G. Phillips, the Truman Blocker Jr., MD. Distinguished Professor and Chief of the Division of Plastic Surgery at UTMB. A consummate leader and mentor, she has trained countless residents through her many years of service, amplifying her impact on our specialty.

Join us for a dynamic weekend packed with exceptional education with speakers from Texas and beyond, opportunities to networking with peers as we bring back golf this year and host the first Women in Plastic Surgery luncheon, for learning about legislative advocacy and how the scope of our practice is under constant threat, and finally we invite you and your guests to attend the TSPS Saturday evening dinner and social, as we light up the night under the Texas stars.

Sincerely,

A handwritten signature in blue ink, appearing to read "CCash".

Camille Cash, MD
TSPS President-Elect
