For Breast Reconstruction

CHOOSE PATIENT SATISFACTION THAT LASTS^{1,*}

Natrelle[®] offers a
comprehensive smooth portfolio
backed by a proven safety profile.¹⁻³

Natrelle[®]

A tailored look. A shared vision.

Anna
Actual Natrelle[®] reconstruction patient.
Individual results may vary.

Explore a customized
look and feel with Natrelle[®].^{1,4}

^{*}According to 10-year data from the Allergan core study, patient satisfaction based on 43 primary reconstruction patients using round implants (67.4%, "definitely satisfied" and 23.3%, "somewhat satisfied").¹

Natrelle[®] Breast Implants IMPORTANT SAFETY INFORMATION

WARNINGS

- Breast implants are not considered lifetime devices. The longer patients have them, the greater the chance they will develop complications, some of which will require more surgery
- Breast implants have been associated with the development of a cancer of the immune system called breast implant-associated anaplastic large cell lymphoma (BIA-ALCL). This cancer occurs more commonly in patients with textured breast implants than smooth implants, although rates are not well defined. Some patients have died from BIA-ALCL.
- Patients receiving breast implants have reported a variety of systemic symptoms, such as joint pain, muscle aches, confusion, chronic fatigue, autoimmune diseases, and others. Individual patient risk for developing these symptoms has not been well established. Some patients report complete resolution of symptoms when the implants are removed without replacement

INDICATIONS

Natrelle[®] Breast Implants are indicated for women for the following:

- **Breast augmentation for women at least 22 years old for silicone-filled implants and breast augmentation for women at least 18 years old for saline-filled implants.** This includes primary breast augmentation to increase the breast size, as well as revision surgery to correct or improve the result of a primary breast augmentation surgery
- **Breast reconstruction.** This includes primary reconstruction to replace breast tissue that has been removed due to cancer or trauma or that has failed to develop properly due to a severe breast abnormality. Breast reconstruction also includes revision surgery to correct or improve the result of a primary breast reconstruction surgery

CONTRAINDICATIONS

Breast implant surgery should not be performed in:

- Women with active infection anywhere in their body
- Women with existing cancer or precancer of their breast who have not received adequate treatment for those conditions
- Women who are currently pregnant or nursing

ADDITIONAL WARNINGS

- See Boxed Warning
- **Avoid damage during surgery:** Care should be taken to avoid the use of excessive force and to minimize handling of the implant. Forcing of implants through too small an opening or applying concentrated localized pressure on the implants may result in localized weakening of the breast implant shell, potentially leading to shell damage and possible implant rupture. An incision should be of appropriate length to accommodate the style, size, and profile of the implants. Use care when using surgical instruments in proximity with the breast implant
- Follow recommended fill volumes for saline implants to decrease possibility of shell wrinkling and crease-fold failure

PRECAUTIONS

Safety and effectiveness have not been established in patients with the following:

- Autoimmune diseases (eg, lupus and scleroderma)
- A compromised immune system (eg, currently receiving immunosuppressive therapy)
- Planned chemotherapy or radiation following breast implant placement
- Conditions or medications that interfere with wound healing and blood clotting
- Reduced blood supply to breast tissue

- Clinical diagnosis of depression or other mental health disorders, including body dysmorphic disorder and eating disorders. Please discuss any history of mental health disorders prior to surgery. Patients with a diagnosis of depression, or other mental health disorders, should wait until resolution or stabilization of these conditions prior to undergoing breast implantation surgery

ADVERSE EVENTS

Possible adverse events with breast implant surgery include implant rupture with silicone implants, implant deflation with saline-filled implants, capsular contracture, reoperation, implant removal, pain, changes in nipple and breast sensation, infection, scarring, asymmetry, wrinkling, implant displacement/migration, implant palpability/visibility, breastfeeding complications, hematoma/seroma, implant extrusion, necrosis, delayed wound healing, infection, breast tissue atrophy/chest wall deformity, calcium deposits, and lymphadenopathy. Other systemic conditions have been reported with breast implants.

For more information, please see the full Directions for Use at <https://www.rxabbvie.com>.

To report a problem with Natrelle[®] Breast Implants, please call Allergan[®] at 1-800-624-4261.

The sale and distribution of this device is restricted to users and/or user facilities that provide information to patients about the risks and benefits of this device in the form and manner specified in the approved labeling provided by Allergan[®].

Welcome from the 2026 Program Chair

Dear Colleagues,

On behalf of the Texas Society of Plastic Surgeons, it is my pleasure to welcome you to Houston and the 2026 TSPS Annual Meeting.

This meeting represents one of the most meaningful opportunities we have each year to come together as colleagues - to learn from one another, exchange ideas, reconnect with longtime friends, and build new relationships across our specialty. We are pleased to have plastic surgeons, residents, fellows, medical students, industry partners, and distinguished guests from across Texas and beyond for an exceptional weekend of education and fellowship.

We are especially honored to welcome James M. Stuzin, MD, as our 2026 Keynote Speaker. Dr. Stuzin is internationally recognized for his contributions to aesthetic plastic surgery and surgical education, and we are privileged to have him share his experience, perspective, and expertise with our attendees.

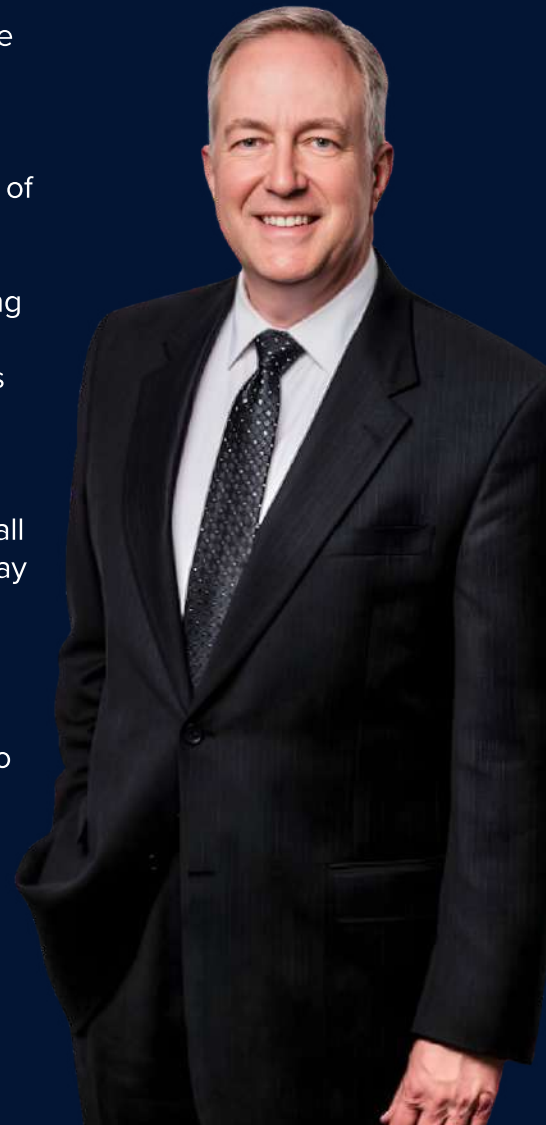

Throughout the weekend, you will also hear from an outstanding group of faculty presenting across a broad range of clinical and professional topics. Our Hot Topics sessions will bring timely issues and emerging ideas to the forefront, while resident and fellow presentations, the Young Plastic Surgeons program, and other educational sessions reflect both the extraordinary talent within our specialty today and the promise of its future.

Beyond the educational program, this meeting is also about the relationships and traditions that make TSPS special. From our Exhibit Hall Welcome Reception and Awards and Texas Legends Lecture to Saturday night's "An Evening of Elegance", I hope you will enjoy the many opportunities to connect and enjoy being together.

Thank you for joining us and for your continued support of TSPS. I am proud of the program we have assembled and grateful to everyone who has contributed to making this meeting possible.

Welcome to Houston. I look forward to a terrific weekend together!

Donald R. Collins, Jr., MD, FACS
2026 Annual Meeting Program Chair
TSPS President-Elect

2026 Annual Meeting Keynote

Aesthetic Concepts of Facial Fat Repositioning to Restore Facial Shape: Laterally Based SMAS Techniques and Medially Based Deep Plane Techniques

Saturday, September 19

James M. Stuzin, MD

As one of the foremost experts in aesthetic plastic surgery practicing today, Dr. James Stuzin has a passion for facial rejuvenation dating back over four decades. An accomplished educator as well as surgeon, he was Chairman of the American Board of Plastic Surgery and served as President of American Society for Aesthetic Plastic Surgery. Dr. Stuzin was also Chairman of the Baker Gordon Educational Symposium in Miami, Florida for many years.

2026 Texas Legends Lecturer

Texas Legends Lecture

Before & After

Saturday, September 19

Berkeley Powell, MD

A respected plastic surgeon formerly in private practice in Houston, Texas, Dr. Berkeley Powell has served as both President of the Houston Society of Plastic Surgeons and President of the Texas Society of Plastic Surgeons. In recognition of his distinguished career and lasting influence on the specialty, he has been named the 2026 Texas Legend.

In Appreciation

The Texas Society of Plastic Surgeons proudly recognizes The Aesthetic Society for awarding TSPS the 2026 Legislative Grant.

This meaningful support strengthens our voice on behalf of plastic surgeons and the patients they serve across Texas. Through this investment, TSPS is better equipped to advocate at the legislative level, uphold the highest standards of patient safety and professional excellence, and protect access to quality care throughout our state.

We are deeply grateful to The Aesthetic Society for its continued partnership and investment in the work of TSPS. Their support helps ensure that Texas plastic surgeons remain informed, represented, and heard where it matters most.

PARTNERSHIP
THAT
STRENGTHENS
OUR PROFESSION

YPS LUNCHEON

PRESENTED BY ALLERGAN AESTHETICS

What I Wish I Knew: Early Career Lessons in Practice Building, Partnerships, and Contract Negotiations

Moderated by Klara Sputova, MD, TSPS YPS Chair, this interactive fireside discussion will feature brief introductions from each panelist and one or two key lessons learned from their career journey. The conversation will then transition into an open discussion focused on practice building, partnerships, physician contracts, and early career decision making. Attendees will be encouraged to submit questions in advance, with additional audience Q&A during the session.

Our Young Plastic Surgeons are an integral part of TSPS, and we are grateful for the longstanding support of Allergan Aesthetics in making this luncheon possible.

MEET THE PANELISTS

Anton Fries, MD, PhD

Dr. Anton Fries is Chief of Plastic Surgery and a faculty surgeon at UT Health San Antonio. A graduate of the University of Cambridge and former Surgeon Commander in the Royal Navy, he has held clinical and academic roles internationally. His expertise includes microvascular reconstruction, lymphatic microsurgery, cosmetic surgery, and hand surgery. Dr. Fries has authored more than 60 publications and supports humanitarian cleft lip and palate surgery in the Philippines through Operation Restore Hope.

Scott Reis, MD

Dr. Scott Reis is a board-certified plastic surgeon with experience in aesthetic and reconstructive surgery. A Texas native, he graduated cum laude from Rice University with degrees in Finance and Economics and Biochemistry and Cell Biology. He earned his medical degree from the University of Texas Medical School at Houston, where he was inducted into Alpha Omega Alpha, and completed his residency at the NYU Institute of Reconstructive Plastic Surgery.

Kiya Movassaghi, MD, FACS

Dr. Kiya Movassaghi is a board-certified plastic surgeon in Eugene, Oregon, whose practice focuses on cosmetic and reconstructive surgery. A graduate of Harvard Medical School and Harvard Dental School, he completed training in general, maxillofacial, and plastic surgery through Harvard-affiliated programs. Dr. Movassaghi served as President of The Aesthetic Society in 2024, is a Clinical Assistant Professor at Oregon Health & Science University, and directs an Aesthetic Society-endorsed fellowship program.

Samuel E. Pondrom, JD

Samuel E. Pondrom is a partner at ByrdAdatto who works with clients on complex business and healthcare regulatory matters. Before earning his law degree, he worked as an accountant, experience that informs his practical approach to analyzing business challenges. Mr. Pondrom regularly lectures to physicians on the business of medicine and teaches healthcare law. He earned his JD from the Southern Methodist University Dedman School of Law and is a former President of the Texas Health Lawyers Association.

TSPS Featured Events

Friday, Sept. 18

Young Plastic Surgeons (YPS) Luncheon

Sponsored by Allergan Aesthetics

Welcoming Guest Speakers

Anton Fries, MD, Scott Reis, MD, Kiya Movassaghi, MD, FACS, and Samuel E. Pondrom, JD

Plastic surgeons age 42 and younger, or those within their first five years of practice, are invited to attend the YPS Luncheon featuring a special panel discussion, sponsored by Allergan Aesthetics.

This informal lunch offers an opportunity to connect with peers, build relationships, and engage in discussion relevant to early-career plastic surgeons. *Please inquire at the Meeting Registration Desk for seating availability.*

TSPS Friday Night Dinner

Sponsored by Mueller & Associates, CPAs

Join your TSPS colleagues for a special Friday Night Dinner, sponsored by Mueller & Associates, CPAs, featuring Advanced Tax Planning for Plastic Surgeons, presented by Brian Mueller, CPA. Enjoy dinner while discovering tax-planning strategies designed specifically for plastic surgeons. *There is no additional cost to attend, but please inquire at the Meeting Registration Desk for seating availability.*

Welcome Reception & Awards

Kick off the weekend with an evening of conversation, celebration, and connection at the TSPS Welcome Reception in the Exhibit Hall.

Join colleagues and industry partners as we announce podium awards and the prestigious Blocker Bowl Award, explore the Exhibit Hall, and get an early look at this year's Silent Auction.

Plus, stop by our special *Kendra Scott Gives Back* trunk show, with a portion of purchases benefiting the TSPS Educational Foundation.

Reconnect, celebrate, and enjoy a great start to the 2026 Annual Meeting in Houston!

Texas Plastic Surgery Programs & Medical Student Breakfast

Sponsored by Allergan Aesthetics

Medical students are invited to connect with representatives from Texas plastic surgery training programs during this informal breakfast focused on mentorship, career exploration, and pathways into the specialty. Grab your food and beverage in the Exhibit Hall and join us in Houston Ballroom V.

Texas Legends Luncheon

Welcoming Guest Speaker Berkeley Powell, MD

The Texas Legends Luncheon will honor our 2026 Texas Legend, Berkeley Powell, MD, recognizing his distinguished career, his service to TSPS, and his lasting influence on the plastic surgery community in Texas. *RSVP is required. Please inquire at the Meeting Registration Desk for availability.*

Women in Plastic Surgery Luncheon

Co-Sponsored by Allergan Aesthetics and Integra LifeSciences

Fertility in Focus: Family Planning and Infertility Considerations for Female Surgeons

Presented by Guest Speaker Kelli Burroughs, MD

Hosted in partnership with Allergan Aesthetics and Integra LifeSciences, this special luncheon celebrates the leadership, mentorship, and professional contributions of women in plastic surgery while providing an opportunity to connect, share perspectives, and strengthen the relationships that help shape our specialty.

A respected leader and advocate for women's health, Dr. Kelli V. Burroughs brings a thoughtful perspective on leadership, service, and advancing women in medicine. She serves as Assistant Professor of Obstetrics, Gynecology and Reproductive Services at McGovern Medical School at UTHealth Houston, where she is also Vice Chair of Clinical Affairs and Patient Experience. *RSVP is required. Please inquire at the Meeting Registration Desk for availability.*

2026 Abstract & Poster Competitions

TSPS recognizes excellence in clinical research, scientific innovation, and education through the Annual Abstract & Poster Competition. Residents, fellows, and practicing plastic surgeons showcase their best work through platform presentations and scientific posters. We invite you to attend these sessions and join us in celebrating this year's award recipients.

First and second places awarded.
Open to Residents and Fellows.

First and second places awarded.
Open to Residents and Fellows.

Awarded to the Best Overall Paper submitted by a *Senior Resident.

Presented for the Best Overall Paper presented by a TSPS Active Member.

Presented for the Best Overall Paper presented by a TSPS YPS Member.

Presented for the Best Overall Poster presented by a Medical Student.

Who will toast their victory with the 2026 Truman G. Blocker Bowl? The Blocker Bowl is awarded to the Plastic Surgery Residency Program with the overall highest scores for resident abstracts.

Visit tsp.net for complete details!

* Senior status is defined as a physician in their last year of resident training before beginning fellowship.

2026 CME Program Schedule

Presented in compliance with updated CME accreditation requirements.

CME lectures are ONLY located in the General Session (Houston 6-7).

ACCREDITATION STATEMENT:

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Texas Medical Association and the Texas Society of Plastic Surgeons. The Texas Medical Association is accredited by the ACCME to provide continuing medical education for physicians.

DESIGNATION STATEMENT:

The Texas Medical Association designates this live activity for a maximum of 14.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

OBJECTIVES

Upon completion of this program, participants will

- Apply updated and current knowledge in comprehensive plastic surgery, cosmetic surgery, hand, breast, and craniomaxillofacial surgery;
- Acquire and discuss knowledge of new techniques and innovations in comprehensive plastic surgery, cosmetic surgery and craniomaxillofacial surgery.

HOW TO SELF-CLAIM YOUR CME

- **When:** CME documentation is generally available within 7-10 business days after the conclusion of the meeting.
- **How:** Attendees will log in to the TMA portal to self-claim your CME. We will email you detailed instructions — including links to the TMA website.
- **Need Assistance?** TSPS does not have access to the TMA Knowledge Center and your CME data. Questions regarding CME credit claiming or your TMA Education Center account may be directed to the TMA Knowledge Center at (800) 880-7955.

	:05	Pedicular arteriovenous fistula improves outflow across free omental flap: a case report	HOUSTON 6-7	Kathryne Holmes, MD UT Health San Antonio
	:05	Classic Masquelet Technique for Upper Extremity Bone Defect Reconstruction in Adults: A Systematic Review and Meta-Analysis	HOUSTON 6-7	Hendrik Lintel, MD UT Houston
		Q&A	HOUSTON 6-7	Moderator: Michael Smith, MD
10:00AM – 10:30AM		EXHIBIT HALL EXPERIENCE with BREAK	HOUSTON 1-4	
10:30AM – 11:10AM		Platform: Aesthetic	HOUSTON 6-7	Moderator: Ashley Steinberg, MD
	:05	Postoperative Complications Following Aesthetic Surgery in Massive Weight Loss Patients Treated with GLP-1 Receptor Agonists versus Bariatric Surgery	HOUSTON 6-7	Melinda Lue, MD Baylor Scott & White - Temple
	:05	From Reconstruction to Aesthetics: Characterizing the Rate, Timing, and Nature of Aesthetic Procedures Sought by Postmastectomy Reconstruction Patients at a Single High-Volume Institution	HOUSTON 6-7	Mariana Trevino, MD Baylor College of Medicine - Houston
	:05	Antidepressant Use and Subsequent Cosmetic Surgery Rates: A National Database Retrospective Cohort Study	HOUSTON 6-7	Kimberley C. Brondeel, MD UT Medical Branch
	:05	The Seamstress Method: An Innovative Modification of Abdominal Wall Plication in Abdominoplasty	HOUSTON 6-7	Dorian S. Hill, MD UT Medical Branch
	:05	Readability, Quality, and Content Assessment of Online Patient Education Materials Addressing Breast Implant Illness	HOUSTON 6-7	Jose E. Barrera, MD UT Houston
	:05	Comparative Outcomes of GLP-1 Receptor Agonist Users vs Nonusers in Obese Patients Undergoing Body Contouring Surgery: A Propensity-Matched Cohort of 4,352 Patients	HOUSTON 6-7	Olivia G. Leonovicz, MD Baylor College of Medicine - Houston
	:05	Revision Rhytidectomies: A Systematic Review of the Literature	HOUSTON 6-7	Rami Dibbs, MD UT Medical Branch
		Q&A	HOUSTON 6-7	Moderator: Ashley Steinberg, MD

TIME	CME	TITLE	LOCATION	SPEAKER
11:10AM – 11:45AM		Platform: Hand	HOUSTON 6-7	Moderator: Jennifer Kargel, MD
	:05	Intramedullary Screw Fixation for Open Phalangeal Fractures at a Level I Trauma Center	HOUSTON 6-7	Robert Tung, MD UT Houston
	:05	Hand It Over: Evaluating the Appropriateness of Interfacility Hand Surgery Transfer	HOUSTON 6-7	Ellen Wang, MD UT Houston
	:05	Treatment Trends of Dupuytren Disease: Analysis of a Large Payor Database	HOUSTON 6-7	Danielle Rogan, MD UT Medical Branch
	:05	Low Infection Rates Following Contemporary Management of Pediatric and Adult Upper Extremity Animal Bites	HOUSTON 6-7	Richard Appel, MD Baylor College of Medicine - Houston
	:05	Prognostic Indicators for the Salvage of Mangled Upper Extremities	HOUSTON 6-7	James A. Mentz, MD UT Houston
	:05	Intramedullary Screw Fixation for Open Metacarpal Neck and Shaft Fractures: Outcomes at a Level I Trauma Center	HOUSTON 6-7	Michael Talanker, MD UT Houston
		Q&A	HOUSTON 6-7	Moderator: Jennifer Kargel, MD
11:45AM – 12:20PM		Platform: Breast	HOUSTON 6-7	Moderator: Pablo Padilla, MD
	:05	The Association of Social Vulnerability Index and Travel Distance with Surgical Outcomes in Patients Undergoing Autologous Breast Reconstruction	HOUSTON 6-7	Rosevine A. Azap, MD UT Medical Branch
	:05	Allergic Disease Is Associated with Increased Infection and Lymphedema Risk After DIEP Flap Breast Reconstruction: A Propensity-Matched Analysis of 10,640 Patients	HOUSTON 6-7	Lindsay Dean, MD Houston Methodist (Senior)
	:05	Sensory Recovery Following Intercostal Nerve Neurotization in Gender-Affirming Mastectomy with Free Nipple Graft: A Preliminary Case Series	HOUSTON 6-7	Rebecca Luh, MD UT Houston
	:05	Radiation Recency and Surgical Risk in Reduction Mammoplasty: A Propensity-Matched Analysis	HOUSTON 6-7	John D. Bovill, MD Baylor College of Medicine - Houston
	:05	Delayed versus Immediate DIEP Flap Breast Reconstruction: A Multicenter Propensity-Matched Cohort Study of 13,509 Patients	HOUSTON 6-7	James Yang, DO Houston Methodist
	:05	Tranexamic Acid in DIEP Flap Breast Reconstruction: Outcomes from a 1,238-Patient Propensity-Matched Multicenter Cohort Study	HOUSTON 6-7	Hamza Bhatti, DO Houston Methodist
		Q&A	HOUSTON 6-7	Moderator: Pablo Padilla, MD

HOW TO CLAIM CME CREDIT

Instructions for claiming CME credit through the TMA Knowledge Center will be emailed to all registered participants following the meeting. Attendees should claim only the credit commensurate with the extent of their participation in the educational activity and should only claim credit for sessions they personally attended.

The Texas Medical Association now automatically reports physician continuing medical education credits earned through TMA CME activities directly to CE Broker. Visit the TMA website for CE Broker support at [texmed.org](https://www.texmed.org).

POSTER PRESENTATIONS

Poster Presentations are divided into AM & PM sessions, as noted in the schedule. Each presenter is listed by easel number followed by poster number (e.g., 1-16 = Easel 1, Poster 16).

AM Presenters

1-16 Ryan Reinhart

UT Health Science Center at Houston

Early Motion Protocols After Digital Replantation at Flexor Tendon Zone I-II: A Systematic Review and Meta-Analysis of Functional Outcomes and Operative Constructs (Hand)

2-18 Lauren Stautzenberger

UT Health Science Center at Houston

Reconstruction in the Real World: Outcomes of Direct-to-Implant vs Tissue Expander Reconstruction at a Safety-Net Hospital (Breast)

3-21 Peter Bakht

UT Health Science Center at Houston

The Safety of Peripheral Nerve Blocks in Traumatic Free Flap Extremity Reconstruction (General)

4-23 Cailey England

UT Health Science Center at Houston

Who You Gonna Call? The Impact of Consultation Mistrriage on Necrotizing Soft Tissue Infections of the Upper Extremity (General, Hand)

5-26 Maame Effirim

UT Health Science Center at Houston

Gut Feeling: Predictors of Gastrostomy Tube Placement in Pediatric Patients with Cervicofacial Vascular Malformations (Pediatrics/Craniofacial)

6-28 Alexandra Dunker

UT Health Science Center at Houston

"Eye"identifying Severe Injury: Orbital Fractures as Markers of Complex Pediatric Facial Trauma (General, Pediatrics/Craniofacial)

7-29 Maya Iyer

UT Health Science Center at Houston

Family Satisfaction With Lip Reconstruction Outcomes in Children With Cleft Lip: Comparison Between Nasoalveolar Molding (NAM) and Non-NAM Cohorts (Pediatrics/Craniofacial)

8-30 Jered Wilson

UT Health Science Center at Houston

More Than a Mesh: The Impact of Gastrocnemius Flap Coverage on Extensor Mechanism Reconstruction After Total Knee Arthroplasty (General)

9-32 Dustin McHalfey

UT Health Science Center at Houston

Facial Fracture Location Predicts Distinct Traumatic Brain Injury Phenotypes in Children (Pediatrics/Craniofacial)

10-35 Alyssa Griffith

UT Health Science Center at Houston

Reporting Outcomes Following the Microsurgical Management of Non-Extremity Lymphedema: A Systematic Review (General)

11-42 Rodger Rivera

UT Health Science Center at Houston

When Red Isn't "Read": Colorimetry vs. Clinical Vascularity Grading in Hypertrophic Burn Scars (General)

12-43 Erica Lee

UT Health Science Center at Houston

Seeing It Through: Stage 2 Attrition in the Masquelet Technique for Lower Extremity Segmental Defects (Hand)

13-53 Pranaya Raparla

UT Health Science Center at Houston

A Deeper Dive into Breast Adipose Tissue from Mastectomy Patients (Breast)

14-61 Noelle Smurawa

UT Health Science Center at Houston

Free Flap Coverage in Segmental Bone Defects Reconstructed with the Masquelet Technique: Limb Salvage, Union, and Functional Recovery in a High-Severity Trauma Cohort (General)

15-14 Nicole Kanellopoulos

UT Health Science Center at San Antonio

Beyond Primary Repair: Delayed Primary and Secondary Cleft Reconstruction During an International Surgical Collaboration (Pediatrics/Craniofacial)

16-27 Helen Dawson

UT Health Science Center at San Antonio

NovoSorb Biodegradable Temporizing Matrix with Negative Pressure Wound Therapy to Enable Split-Thickness Skin Grafting for Pediatric Scalp Avulsion Over Thin Calvarium: A Case Report (General, Pediatrics/Craniofacial)

POSTER PRESENTATIONS

AM Presenters – Continued

17-31 Jared Kitteringham

UT Health Science Center at San Antonio

Pedicular arteriovenous fistula improves outflow across free omental flap: a case report (Breast, General)

18-33 Taha Sharaf

UT Health Science Center at San Antonio

Chest Wall Hair Regrowth Following Serial Autologous Fat Grafting in a Post-Mastectomy, Irradiated Male (Cosmetic, Breast, General)

19-38 Karina Tacconi

UT Health Science Center at San Antonio

Heparin Induced Thrombocytopenia Resulting in Total Flap Loss Following Breast Reconstruction: A Case Report (Breast)

20-39 Alexandra Thornton

UT Health Science Center at San Antonio

Silicone Granulomatosis of the Pectoralis Major Following Cosmetic Breast Augmentation (Cosmetic, Breast, General)

21-55 Isaac Noble

UT Health Science Center at San Antonio

Autologous Palmaris Longus Tendon Brow Suspension with Calvarial Bone Tunnel Fixation for Multiply Recurrent Brow Ptosis (General)

22-19 Melinda Dae

University of Texas

Safety of High-Volume Abdominal Liposuction During Lipoabdominoplasty: A 10-Year Retrospective Review (Cosmetic)

23-5 Arvin Karbasi

University of Texas at Austin Dell Medical School
CFTrainer: A Self-Contained, Image-Grounded Craniofacial Fracture Trainer Using Spaced Repetition and Adaptive Difficulty (Pediatrics/Craniofacial)

24-3 Chinenye Ogbonah

University of Texas Southwestern Medical School

Global Hand and Upper-Extremity Surgery in Low- and Middle-Income Countries: A Systematic Review of Clinical Scope, Geographic Representation, and Care Delivery Models (Hand)

25-13 Fatima Massare Somers

University of Texas Southwestern Medical School

Tapped Out: Developing a New Clinical Scoring Tool for Ruling Out Septic Arthritis (Hand)

26-41 Rachel Rohrich

University of Texas Southwestern Medical School

GLP-1 Receptor Agonist Use is Associated with Reduced Wound Complications Following Autologous Breast Reconstruction (Breast)

27-44 Gabrielle Kupferman

University of Texas Southwestern Medical School

Beyond Minority: Race-Specific Pathways of Surgical Disparity in Non-Syndromic Craniosynostosis (Pediatrics/Craniofacial)

28-49 Timothy Wright

University of Texas Southwestern Medical School

Early Revision Outcomes with Poly-4-Hydroxybutyrate Mesh in Implant-Based Breast Reconstruction: A Propensity-Matched Cohort Study (Breast)

29-50 Diane Saab

University of Texas Southwestern Medical School

Suzetrigine Provides Early Postoperative Pain Reduction and Opioid-Sparing Analgesia After Lumbar Artery Perforator Flap Breast Reconstruction (Breast)

30-57 Ryan Dominguez

University of Texas Southwestern Medical School

Unequal Hands: The Impact of Insurance on Amputation Rates in Traumatic Hand Injuries (Hand)

PM Presenters

1-1 Margaret Hancock

Baylor College of Medicine

Mediastinal Realignment vs. Cardiac Support: Divergent Risk Profiles with the Use of Large Intrathoracic Implants (General)

2-4 Stephen Chen

Baylor College of Medicine

Guiding Reconstruction After Necrotizing Soft-Tissue Infection: A Systematic Review of Outcomes (General)

3-9 Anthony Shadid

Baylor College of Medicine

Development and Validation of a 3D-Printed Two-Point Discrimination Device (Hand)

4-10 Alexandra Martinez

Baylor College of Medicine

Integra versus NovoSorb Biodegradable Temporizing Matrix for Scalp Reconstruction Following Mohs Micrographic Surgery: A Single-Institution Comparative Study (Pediatrics/Craniofacial)

5-11 Nicole Wire

Baylor College of Medicine

Factors Associated with Delayed Presentation of Patients with Craniosynostosis (Pediatrics/Craniofacial)

6-12 Anthony Insalaco

Baylor College of Medicine

Donor-Site Morbidity Following Pediatric Free Fibula Transfer (Pediatrics/Craniofacial)

7-24 Joelly Cortes

Baylor College of Medicine

More Than Skin Deep: Reconstruction After Pediatric Degloving Injuries - A 15-Year Experience of a Pediatric Level 1 Trauma Center (General)

8-51 Diego Quirarte

Baylor College of Medicine

Validation of Large Language Model Responses to Craniosynostosis Caregiver Questions by Craniofacial Surgeons (Pediatrics/Craniofacial)

POSTER PRESENTATIONS

PM Presenters – Continued

9-52 Fareen Dhuka

Baylor College of Medicine

Temporary External Splinting with Nipple Piercing Following C-H Flap Nipple Reconstruction: Preliminary Feasibility Experience (Breast)

10-54 Kevin Vargas

Baylor College of Medicine

Caregiver Experience with the NeoEar™ to Correct Congenital Ear Abnormalities: A Case Series (Pediatrics/Craniofacial)

11-62 Chad Mourino

Baylor College of Medicine

Timing of cleft surgical care and speech outcomes among military and civilian families in central Texas (Pediatrics/Craniofacial)

12-8 Denisse Torres

Clinical Observership, Houston | Bruce K. Smith, MD

Purse-String Reinforced SMAS'ectomy, (PRS procedure): A single surgeon's technique (Cosmetic)

13-7 Sahan Suggala

Paul L. Foster School of Medicine

Rising Early Wound Morbidity After Tissue-Expander Breast Reconstruction During a Decade of Outpatient Transition (Breast)

14-60 Yousef Tanas, MD

Post-doctoral Research Fellow—Houston Methodist Institute for Reconstructive Surgery

Prepectoral Direct-to-Implant Breast Reconstruction Using a Novel ADM: A Retrospective Cohort Study with Analysis of Capsular Contracture Risk Factors and Patient-Reported Outcomes (Breast)

15-58 Samantha Cervantes, MD

Post-doctoral Research Fellow—Houston Methodist Institute for Reconstructive Surgery

Flap weight as a predictor for donor site and flap complications in DIEP flap breast reconstruction (Breast)

16-6 Veronica Stuckey

Texas A&M University-Medical School

A Reproducible and Scalable Workflow for Synthetic Microvessel Fabrication: Proof-of-Concept and Quality Assurance for Simulation-Based Training (General)

17-22 Keyvon Rashidi

Texas A&M University-Medical School

Validation of the numeriFACE Suite for Quantitative Facial Kinematic Assessment in Facial Paralysis (General, Pediatrics/Craniofacial)

18-25 Alicia Kim

Texas A&M University-Medical School

A Robotically Assisted Approach to the Repair of an Abdominal Wall Hernia Following Omental Flap Reconstruction (General)

19-36 Landon Hackley

Texas A&M University-Medical School

Peri-operative Corticosteroid Taper and Outcomes After Cross-Face Nerve Grafting: A Propensity-Matched Analysis of 2,430 Patients (Pediatrics/Craniofacial)

20-45 Rithvik Gunda

Texas A&M University-Medical School

The Impact of Autoimmune Diseases on Outcomes After DIEP Flap Breast Reconstruction: A Propensity-Matched Cohort Study (Breast)

21-56 Lauren Hoffpauir

Texas College of Osteopathic Medicine

Pediatric Head and Neck Free Flap Reconstruction: Age-Specific Considerations and Experience at a Tertiary Pediatric Care Center (Pediatrics/Craniofacial)

22-20 Matthew Dao

UT Medical Branch

Comparative Outcomes of Endoscopic versus Open Carpal Tunnel Release in Postmenopausal Women (Hand)

23-40 Shayan Parvizi

UT Medical Branch

Semi-Automated Quantification of Wound Remodeling in the Red Duroc Porcine Burn Scar Model (General)

24-47 Neha Momin

UT Medical Branch

Racial Disparities in Access to and Outcomes of Bariatric and Post-Bariatric Body Contouring Surgery in the United States: A Retrospective Analysis (Cosmetic)

25-48 Joshua Borja

UT Medical Branch

Racial and Ethnic Differences Across the Breast Cancer-Related Lymphedema Care (Breast)

26-59 Philong Nguyen

UT Medical Branch

Geographic Access to Blepharoplasty Providers Among Medicare Beneficiaries in the United States, 2015 to 2024: A Geospatial Analysis with Linear Projections (Cosmetic, General)

27-15 Pierce Hollier

UT Southwestern Medical Center

Impact of the Extent of Suture Fusion and Minor Suture Involvement on Craniofacial Morphology in Unilateral Lambdoid Synostosis (Pediatrics/Craniofacial)

28-17 April Ju

UT Southwestern Medical Center

The Effect of Drain Variation on Infection and Explantation Rates in Tissue Expander Based Breast Reconstruction (Breast)

29-34 Puneetha Goli

UT Southwestern Medical Center

Aesthetic Preferences for Male External Genitalia: A 3D Model-Based Examination of Anatomical Dimensions and Circumcision Status (Cosmetic, General)

30-37 Devan Patel

UT Southwestern Medical Center

Comparative Outcomes of Synthetic and Biological Dermal Substitutes in Nasal Reconstruction: An 8-Year Single-Institution Experience (General)

31-46 Ethan Lumongsud

UT Southwestern Medical Center

Skin Color Match Outcomes by Fitzpatrick Skin Type in Autologous Breast Reconstruction (Breast)

The Only AI Revenue System Built for Plastic Surgery.

**No more wasted leads and
pointless consults. Make AI
work for you.**

Riviera trains AI agents on
your practice: your
procedures, your pricing,
the way you communicate
with patients. We deploy
them as your front office.
Every lead answered,
qualified, and captured,
24/7. And it gets smarter
with every data point.

**Learn more about how Riviera
can help you recover revenue.**
